THE EVIDENCE OF CREATION

Creation:

Whether the rings of Saturn,¹ radio-polonium halos,² or symbiotic relationships,³ the entire universe points to a single creation event. Genesis 1:1, "In the beginning..."

Flood:

Massive fossil graveyards⁴ point to a global catastrophe⁵ that killed creatures by the millions without destroying their bodies. Unusual rock layers,⁶ human objects found in coal beds,⁷ and extreme pressure in oil deposits⁸ indicate that this catastrophe was water-based and happened while man was present on earth. Genesis 6-8

Red Sea Crossing:

The miraculous intervention⁹ to save Israel from Pharaoh's army shows God's willingness to intercede on the behalf of mankind.

Jesus:

Prophesied more than any other event, Jesus Christ's virgin birth, and later his death on the cross was the ultimate gift God could give mankind.¹⁰ John 3:16; Rom 3:23, 6:23

Fall of Roman Empire:

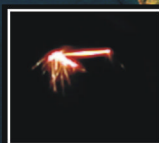

The collapse of the Roman infrastructure was caused by many years of barbarian raiding. This damage proved to be too much, sending all of Europe into a thousand-year Dark Age.¹¹

Gutenberg:

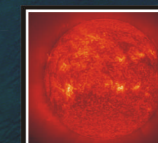

While kings and politicians were still trying to rebuild the glory of the Roman Empire, a poor businessman changed the course of history with his invention of a moveable-type printing press.¹²

Present:

Increasing complexity in a system requires intelligence. When lacking, chaos results. 6,000 years of history proves this fact.

THE STRUGGLE OF EVOLUTION AGAINST SCIENCE

Big Bang:

There is actually no proof of the Big Bang.¹

Earth Forms:

So far, every theory of the earth's formation goes against physical laws.²

Life Appears:

Does a car form by chance?
Does any mechanical device?
Neither could life.³

Man Appears:

Pitldown Man was a fraud. Nebraska Man was a hoax. Lucy was a large chimpanzee, a variant of which is alive in Sumatra. Man has been present throughout Earth's history.⁴

Present:

Even in the midst of the Information Age, some hold to disproven theories to the detriment of society.⁵
